

Florida Section, American Water Resources Association, Inc.

The Rosanne Clementi Education Program

Undergraduate Student Award Application

The Florida Section of the American Water Resources Association (AWRA Florida) is a multidisciplinary professional organization concerned with the conservation, development, management and utilization of fresh and estuarine waters and related resources together with their environmental aspects. AWRA Florida annually offers one (1) William V. Storch Student Award of **\$1,500** to undergraduate students enrolled at an accredited college or university in Florida who have demonstrated outstanding achievements in academic performance and/or research. **AWRA Florida may award up to three (3) William V. Storch Student Awards to Undergraduates in 2024.**

About the William V. Storch Student Award

AWRA Florida established the William V. Storch Award in 1977 in honor of one of its founding members, William V. Storch. The award was created to recognize Florida students who have demonstrated outstanding achievements in academic performance and/or research.

The selection criteria for an undergraduate student will be based on academic performance including the cumulative grade point average, relevance of the student's curriculum to water resources and leadership in extracurricular activities related to water resources.

Applicants should prepare a concise but thorough summary of their academic interests and achievements, extracurricular interests, and career goals as they relate to the above selection criteria. The application must also include a letter of reference, preferably from a professor or advisor, a transcript of all college courses and the applicant's full name, permanent mailing address, email address, and a reliable phone number.

The application deadline for this award is **April 12th, 2024**, with the awards being announced in the late summer, following the summer meeting of the 2024 AWRA Florida Board of Directors.

Application Requirements and Instruction:

Submit your application electronically as one PDF file – Application, Applicant Letter, and Transcript. You can have Faculty send references and signature page separately directly to us.

1. Complete the application form. All parts of the application must be completed.
2. Include the following applicant information on a separate sheet (two (2) pages maximum):

Provide concise, yet thorough, response to the following items. (Also see “Selection Criteria” section at the bottom of this page for additional guidance)

- Describe how your coursework, career goals and, if applicable, your research supports AWRA Florida’s mission to advance multidisciplinary water resources education, management, and research.
 - Describe your academic interests and achievements, extracurricular interests and career goals as they relate to the above selection criteria.
3. Have supporting professor or faculty member endorse the application.
 4. Include a letter of reference, preferably from a professor or advisor.
 5. Attach course transcript from current or most-recent institution attended. An unofficial transcript is acceptable.
 6. Application packages must be combined into a single PDF file, named with your last name, the award name and year (e.g. “**ApplicantLastName_Storch_2024.pdf**”).
 7. Submit the application package to awra@awraflorida.org with the subject line “**2024 Storch Application**”.
 8. Application packages must be emailed to AWRA Florida no later than **April 12th, 2024**.

If you have any questions or do not receive a receipt confirmation email within 24 hours of submitting your application, call or email Gordon Brown at (352) 246-1865 or gbsailorny@msn.com.

Selection Criteria for the applicant to consider regarding content to include:

- **Program of study:** Evidence from transcripts, and from explanation in application materials if relevant, for program of study including breadth and depth in an area of water resources, especially as applicable to study of Florida’s water resource issues.
- **Extracurricular activities:** Evidence of active engagement, especially in activities with relevance to professions involving water resources.
- **Undergraduate Research:** If applicable, provide information on undergraduate water resources research conducted or participated in.
